Diamond Blue
(ACTUAL SIZE)

NS-891
Ocean Blue

Another new tile with a soft embossed design is our *North Star*. While the *North Star* design is more celestial in nature than the *Sea Shell*, they both share the same blue hues which are seen in tropical waters as well as in the heavenly skies.

Before your tiles are installed, please read the tip about color variations on page 3.

Note: the two tiles on these pages are color coordinated with the *Marine Field* tiles on pages 4 & 5. They have been designed for what is known in the pool and spa trade as "Mix & Match".

MARINE SHELL

1 Sheet = 1 sq. ft.

If you are fond of warm seas and sandy beaches, you'll love our new *Marine Shell* tile with its soft, embossed design. The tile colors reflect the variety of blue hues seen in tropical waters around the world.

MS-97
Sapphire Blue

MS-91

NS-897
Sapphire Blue

TIP The shade of tiles may vary within any given color.
Visually check the actual shade of the tile before installation.

Why is it important to check tile color before installation? Two reasons:

- (1) All tiles are subject to color variations within each lot. The slightest change in firing temperature, variables in glaze thickness and position of a tile in the kiln contributes to producing color variations. Also, tiles are 'fired' in relatively small numbers, so it's not uncommon to observe slight color shifts from one lot to the next.

Actually, it's this anomaly from firing and glaze application that gives all our pool and spa tiles their remarkable beauty.

- (2) Even though it is our desire to depict tile colors accurately in this brochure, the limits of offset printing may cause some shifts in color when compared to the actual tile.

Before your tiles are installed, please read the tip about color variations on page 3.

YOSEMITE

4 Pieces = 1 sq. ft.

If you are looking for a bold, contemporary design, consider our new marbled-looking *Yosemite* tile. The large 6"x6" tile is more suitable for use in rectangular-shaped pools or on surfaces that are relatively flat. (It requires a lot of extra work and cutting to install a large tile on curved or free-formed surfaces – but it can be done.)

800
Midnight Blue

Desert Sky Blue

1 Sheet = 1 sq. ft.

MARINE FIELD

M-370
Hunter Green

M-399
Emerald Green

M-321
Olive Blue

M-390
Marine Green

Although the *Marine Field* are basically solid color tiles (except for the Terra Blue), it's the variable depth of color that enhances the rich beauty of these tiles – no two tiles are alike.

These tiles are also color coordinated with *Marine Shell & North Star* tiles on the previous two pages which allows for a "Mix & Match" arrangement. (See the "Mix & Match" note on page 3.)

When installing *Marine Field* tile on surfaces that meet at outside right angles, you can select from two types of tiles to give you a rounded, finished appearance.

Quarter Round Tiles

Bullnose Tiles

Before your tiles are installed, please read the tip about color variations on page 3.

WATERSIDE

1 Sheet = 1.08 sq. ft.

Our dynamic new *Waterside* line is designed with a tempo to match the water it surrounds. This tile features marbled accent colors gently waving through a field of smooth, solid color.

WA-108
Salmon

WA-100
Terra Blue

1 Sheet = 1.0 sq. ft.

MEDITERRANEAN

MDT-120
Lagoon Green

For a subtle granite-looking tile, chose the **Mediterranean** tiles. This tile is a superb design for complimenting accent stones or other rockwork, especially decks finished in PebbleTec or Diamond Brite products.

When installing **Mediterranean** tile on surfaces that meet at outside right angles, you can select from two types of tiles to give you a rounded, finished appearance.

Quarter Round Tiles

Bullnose Tiles

TIP Pool/spa tiles are manufactured to conform to established pool construction standards.

Even though a tile manufacturer will use many pieces to create a basic tile design, all pool/spa tiles are manufactured to a modular dimension based on a construction step height of 6 inches.

SUN SPLASH

1 Sheet = 1.1 sq. ft. for SUN-103 & -105

You've hear the expression "you have to see it to believe it"? Well, you have to see our new *Sun Splash* tiles to appreciate what makes these tiles so strikingly beautiful – it's their deep rich colors sprinkled with glistening metallic flakes to sparkle in the sunlight.

This series is unique, not only because of the hard-to-find metallic finish, but because the colors are available in both the 1"x1" "cobble-stone" type tiles

and the 3"x3" size tiles. This arrangement makes the Sun Splash a very versatile tile.

When installing *Sun Splash* tile on surfaces that meet at outside right angles, you can select from two types of tiles to give you a rounded, finished appearance.

Bullnose Tiles

Quarter Round Tiles

1 Sheet = 1.06 sq. ft.

TEMPE

TM-20
Teal Green

TM-26
Marine

The subtle blending of soft colors and multi-patterned designs of our new *Tempe* line create a distinctive 3-dimensional appearance. The tiles delicately colored design is further enhanced by the accent border at the top and bottom.

This tiles uniqueness and beauty is timeless – it's sure to be a favorite for years to come.

Before your tiles are installed, please read the tip about color variations on page 3.

TIP Kitchen, bathroom and floor tiles are a world apart from specially manufactured tiles for pools/spas.

Not all tiles are intended for use in pools and spas.

Tiles are designed and manufactured differently depending on how and where they are used.

Pool/spa tiles not only must tolerate changing outdoor temperatures, but must withstand acid-based pool chemicals 24 hours a day.

ANGEL FISH

An aquatic flavor is expressed in the soft embossed pattern of the *Angel Fish* tile. Although similar in design content to the California Dolphin below, this tile's repetitive design is vertically arranged to give your pool and spa a totally distinctive expression.

TIP A pool or spa is an expensive investment. Protect that investment by selecting quality high gloss porcelain pool/spa tiles.

All Cozad & O'Hara high gloss porcelain tiles are manufactured to meet the highest standards of quality, durability and aesthetic appearance. Every tile series or pattern we carry conforms to an identical top-of-the-line standard of manufacturing excellence.

With normal maintenance and proper care, our tiles are acid-resistant, fade-resistant and weather-resistant.

Before your tiles are installed, please read the tip about color variations on page 3.

TIP Most people don't know it, but all pools and spas can be retiled. It's not uncommon to have it done.

Why retiling? To color coordinate tile as part of an overall house redesign effort. Or perhaps a house you purchase has a pool/spa tile that is not to your taste.

Retiling is usually a routine procedure. So when a new tile series or pattern is introduced that you like even more, you can make a change.

Before your tiles are installed, please read the tip about color variations on page 3.

ACCESSORIES

Long lasting, polished stainless steel assist rails come in two configurations: 1) the **Grab Rail** (upper photo) for assistance when using inset steps on a side-wall; and 2) the **Hand Rail** (lower photo) when using regular steps.

Side-wall **Inset Steps** (not shown) are grooved to minimize slippage. These pre-formed steps are available in white and aqua blue.

You have more choices of earth-tone colors in brick products than ever before. Shown is a sampling of a large range of colors, shapes and sizes we stock. All **Bullnose**, **Safety Grip**, **Split** and **Common Bricks** are made of quality clay and fired at high temperatures for durability and lasting beauty.

We now stock a gutter cap for use with commercial pools (Aqua - A7250)

You can choose from a variety of standard Specialty Tiles which serve as sign and depth markers. These tiles can be ordered with a sanded surface to minimize slippage on decks.

If you have a need for personalized "signature" tiles, they are available by special order.
