## Important Decking Product Information

### Recommended Usage

Portobello's Porcelain Stoneware products and Portobello's Ceramic Tile floor tiles are recommended for interior walls and floors and exterior walls in both residential and commercial application when proper installation methods are followed, application requirements vary for decorative tile. D'Ampezzo and Ferrara are recommended for exterior horizontal surfaces and exterior paving. D'Ampezzo and Ferrara while slip resistant are not recommended for areas where standing water can accumulate. Because of this and because of the nature of family pool areas in which large amounts of water can splash on the deck at any given moments creating momentarily the same conditions as standing water that can create a slippery condition, special care should be taken in the proper product selection. To avoid injury please consider your usage and activity level, the slope of your pool deck and your drainage system when considering these or any decking material. Please check local building codes prior to specification or installation to verify that the technical characteristics specified herein comply with all required parameters.

### Care and Maintenance

Regular cleaning is the best way to maintain your porcelain stoneware. Use clean, hot water (combined with a neutral household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. No waxes or sealers needed. See Portobello's "How to Care for Porcelain Stoneware" brochure for more details.

### Warranty

Please consult the Company's Terms and Conditions on Sale for important product information and complete warranty details.

### Test Results and Technical Data

Manufactured in accordance with ANSI A 137.1 standards.

Test	Industry Standards	D'Ampezzo Porcelain Stoneware Test Results	Ferrara Floor Tile Test Results

\* It is not recommended to use the Cairo series in freezing and frost areas.

*Bring the ancient Egyptian ruins to your home with Cairo. Our revolutionary manufacturing process creates a distinct, eye-catching, sandstone look with worn, warm appearance.*

*The terra cotta tiles of old-world Spain are back in the form of Catalana tile. With an irregular edge, these tiles have a rustic, handmade look that is both distinct and beautiful.*

\* It is not recommended to use the Catalana series in freezing and frost areas.

# Ferrara

\* It is not recommended to use the Ferrara series in freezing and frost areas.

Bullnose Tile

- Ferrara colors white, bone, green, gold and blue are also available in the following sizes: 12"x12", 6"x12", 6"x6"
- Ferrara colors, jade and ocean are available in 6"x6" size only
- All colors have available 3"x12" bullnose tiles
- Ferrara offers slip-resistant surface (PEI IV), wear-resistant surface
- 4 pieces of 6"x6" = 0.92 sq. ft.

*Inspired by the beautiful mountains of northern Italy, our Ferrara glazed ceramic tile is as natural as the real thing. Each piece of Ferrara is different, thus providing a more rustic pool look.*
