## ROSE & DAISY

RP 740 Beige Rose

RP 710 White Rose

RP 720 Red Rose

RP 700 Blue Rose

RP 730 Brown Rose

These Rose & Daisy designs are not only excellent on pools and spas but make great area designs in kitchens and bathrooms. Solid color field tiles are available in 3 $\frac{3}{8}$ "x3 $\frac{3}{8}$ " and 6"x6" tiles plus a complete line of trim including V-cap.

DP 770 Brown Daisy

The spa shown above and on the front cover won the National Spa & Pool Institutes 1st place award. Tiles featured are RP740 Beige Rose and JC26 Bright Blue Pebble Tile.

DP 780 Beige Daisy

DP 750 White Daisy

DP 760 Red Daisy

DP 790 Blue Daisy

To help you visualize your pool waterline, we have photographed 6" high tiles. This is the height of tile that is installed on standard pools and spas. However, pools with raised bond beams will have the added beauty of additional rows of tile. All tiles are displayed in the same scale (approx. 1-1/4"=6").

- All our tiles are acid proof.
  - All tiles in this brochure are frostproof \*except the 4 specially marked.
  - All tiles smaller than 6"x6" are mesh mounted.
- Variations in shade are inherent in all kilnfired products and are one of the natural characteristics of tile.

Indoor and outdoor spas gain a look of elegance when completely tiled. Gold Arcadia tile was used on this spa and round columns.

Variations in shade are inherent in all kiln-fired products and are one of the natural characteristics of tile.

#### PICTURE FRAME YOUR POOL WITH COPING FOR SAFETY AND DESIGN

Let's get back to practical as well as beautiful and functional. Coping is the finest product that can be installed around a pool. The smooth rounded edge makes it ever so comfortable to sit on with bare legs and avoids tearing expensive bathing suits on rough, sharp edges. Coping is the safest thing you can install because it gives both children and adults a handgrip to grab onto when in the pool. It is also easier and more comfortable to pull oneself out of the pool over coping. Coping makes cleaning your pool easier since it allows for cleaning your decks without washing debris into the pool water.

There are far fewer problems when coping is installed instead of cantilever decks. This is because the pool can be isolated from moving and expanding decks through the use of a proper expansion joint. Our cantilever coping was designed to give the cantilever look, without the deck movement problems that often occur.

The contour shape of our coping makes it the perfect product to use for outdoor seating. Install it on the top of low planter walls and low tree well walls, turning them into very comfortable and useful benches.

#### CONCRETE PRODUCTS AVAILABLE

1. Conventional bullnose style coping
  2. Flat cantilever style coping
  3. Bullnose brick style coping
  4. Flat concrete bricks to match above coping (Not Shown)
  5. Skimmer lids, 10"x15", to match above coping.
  - Custom Sizes made on request
  6. Slotted trench covers or drain covers
  7. Equipment slabs, approx. 2'x2'. (Not Shown)
- Coping stones are available to fit any shape pool.  
Coping is available in a multitude of colors to coordinate with your own individual backyard color scheme.  
Custom Precasting Available
8. New double edge bullnose coping (shown on front cover).

**NEW DOUBLE EDGE BULLNOSE COPING** (Also Shown on Front Cover)  
New Double Edge Bullnose Coping offers unlimited possibilities. Park like settings are beautifully achieved with this new custom coping.
