Quamagra 1·2·3 Collection

Quamagra always has been thinking and studying what are the most useful and profitable tiles for our customers.

This simple but an important question urged us to meet the completion of this Quamagra 1·2·3 Collection.

Then what is the 1·2·3 Collection?

In short, 1·2·3 Collection means the total coordination of 1", 2", and 3" tiles.

First, we reinforced the CONTINENTAL Series by adding 12 CONTEMPORARY colors – CONTINENTAL II, and 16 PASTEL colors – CONTINENTAL III. Then we renewed the former 1" x 1", 2" x 2" MATRIX colors to be coordinated with the CONTINENTAL III PASTEL colors. Now we have 1" x 1", 2" x 2" and 3" x 3" matching colors.

12 colors out of 16 in COTINENTAL III Series are the 6 light and shade color variations which were determined through a market research and careful examination, aiming at the common use colors for both kitchen, bathroom and pool/spa tiles. PHOENIX, MERMAID and NDMP Series are also created based on these 6 light and shade color variations which make them possible to fit as accent tiles in either 2" x 2" or 3" x 3" field tiles. Furthermore, this 1·2·3 Collection presents you 1-3/8" x 3" ROPE BORDER, 2" x 6" DECO MOLDING and 3" x 3" ROSE DECO which gives you the unnumerable possibility of combinations together with 1", 2" and 3" tiles. Here we show you some of the suggested variations of design in this brochure.

Use full of your imagination and show us your originality.
Quamagra assures you the dream is not just a dream any more.

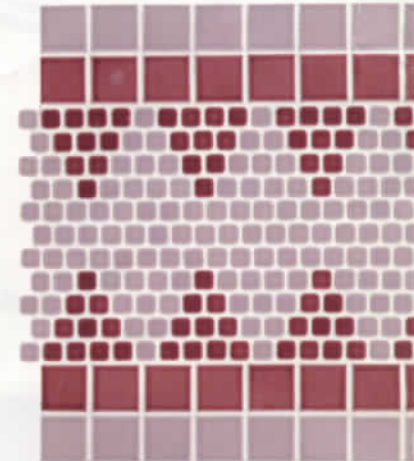

Quamagra introduced the new way of indication of item numbers which gives you the idea of size and color of the tile at a glance. The first numeral of the three figure number shows the size of tile, (1" x 1" – 100, 2" x 2" – 200, 3" x 3" – 300) while the last two figures do its color. Please refer the list as follows.
