Tip: the shade of tiles may vary within any given color. It is important to visually check the actual shade of the tile before installation for two reasons:

- 1) all tiles are subject to color variations due to slight changes in firing temperature, lot size, variables in glaze thickness and position of the tile in the kiln. Actually, it's these anomalies that give our pool and spa tiles their remarkable beauty
- 2) although we strive to depict tile colors accurately in this brochure, the limits of offset printing may cause some shifts in color when compared to the actual tile

The subtle blending of soft colors
and multi-patterned designs of
our **Tempe** line create a distinctive
3-dimensional appearance. The tiles
delicately colored design is further
enhanced by an accent border
at the top and bottom.

1 Sheet = 1.06 sq. ft.

The attractive new **Wild Flower**

is a play on the unique pigments and patterns found in nature.

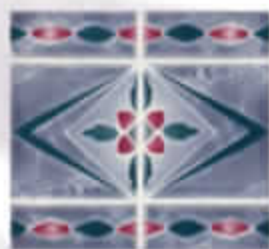

The combination of natural and geometric shapes and textures make this tile an exciting new addition to our line.

Tip: pool/spa tiles are manufactured to conform to established pool construction standards. Even though a tile manufacturer will use many pieces to create a tile design, all pool/spa tiles are manufactured to a modular dimension based on a required construction step height of 6 inches.

Debutante

A sunflower is the focal point of our new **Debutante** line. This floral element is bordered by an ornate print and solid, rich hues. You may "Mix & Match" this tile to create the perfect setting for your pool or spa.

1 Sheet = 1.05 sq. ft.

Designed to blend well with
Mediterranean architecture, our new

Florida line definitely has a Spanish
influence. This vertical tile features
a small solid tile offset by two tiles
with a crystalline glaze and a border
of color at top and bottom.

Tip: most people don't know it, but all pools, spas and floors can be retiled. And it's not uncommon to have it done. Why retile? Perhaps your tastes have changed. Or you purchased a pool or spa with tile selected by someone else. Either way, retiling is the perfect way to color coordinate your landscape and home. It's a routine procedure. So, if you find a new tile series or pattern that's more attractive, don't be afraid to make a change.

Star Mist

A daisy captured inside a diamond is the centerpiece of our new **Star Mist** line. It's surrounded by a symmetrical pattern of rich color that emulates handmade craft paper. Use as a "Mix & Match" pattern to create your own design.

1 Sheet = 1.02 sq. ft.

If you want a tile that makes a statement of refined elegance, consider the **Moonbeam** series. This multi-shaped, multi-elemented tile is enhanced by elegantly embossed patterns, creating rich highlights and a unique color tonality.

The **Reflections** line, another

of our geometrically designed

3-dimensional tiles, boasts

precise pattern edges

complimented by a soft,

textured background, with a

striking, repetitive border.

Noted for its attractive cobble-stone

look, the **California Stone** tile's size

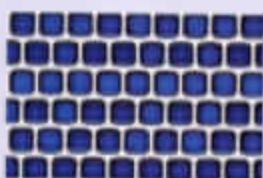

easily adapts to virtually any pool or

spa shape, especially those with curved

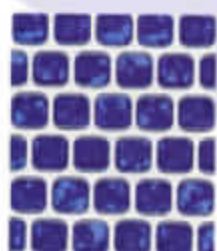

or flowing surfaces. An excellent edge

trim to aid with locating steps.
