PLEASE NOTE:
On all glass tiles, pages 18 through 25, there will be variations in color, shade, texture, and size.

Final selection should be made from actual glass. Consumer should inspect glass before installation.

All glass MUST be set with a high-grade, flexible mortar system (Latex modified thinset).

MasterTile supplies the finest in swimming pool tile, coping, plaster, and decking products. Since our origin in 1998, Master Tile has been a leader in the introduction of new and innovative products for the swimming pool industry. We import waterline tile from premium manufacturers throughout the world. Our coping lines include kiln-fired clay brick as well as imported natural stones.

We have locations in Houston, Dallas, Oklahoma City, New Jersey, Tampa, Anaheim, and Las Vegas. Through our numerous locations and well-stocked inventory, Master Tile is capable of shipping material directly to customers, anywhere in the U.S., on a daily basis.

Our state-of-the-art showrooms offer our customers an opportunity to manipulate and view their tile and coping selections in a way that will allow them to visualize them on a pool. Master Tile also supplies samples to further assist in the selection process.
Natural Stone coping and deck tile are available in a variety of beautiful colors and various sizes of coping and paving tiles. They are ideal for interior as well as exterior uses. As with any natural stone, slight imperfections in color, size, and shape are to be expected. We strongly recommend inspection before installation. Use constitutes acceptance.

All Natural Stones must be sealed. Sealing is an absolute MUST to guard against attack on saltwater pools as it will prevent water penetration that can affect the durability of the stone. Water penetration can also damage the material in freezing conditions. Buyer must determine that the product’s slip resistance is acceptable for an outdoor application.

**CLASSIC TRAVERTINE vs. STANDARD TRAVERTINE & NATURAL STONE PRODUCTS**

CLASSIC TRAVERTINE is slightly thinner at 1¼" thick. Classic travertine coping offers the elegant look of natural stone at a price level comparable to flagstone as well as brick bullnose coping.

*Freeze-Thaw Warning: Not recommended for climates where severe freeze-thaw cycles are experienced*

NATURAL SLATE - RIVIERA

Natural Slate has a texture and range of color unlike any other natural stone. Slate combines beautifully with other natural materials and is an excellent choice for exterior applications. It is available in a variety of colors and sizes for decking applications. As with any natural stone, expect slight imperfections in size and shape. Wide ranges in color enhance slate’s natural beauty, as no two pieces are alike. We strongly recommend inspection before installation. Use constitutes acceptance. Some flaking of slate should be expected after installation. Condition will lessen over time.

SGM Spraydeck
Add beauty to concrete decking with this slip resistant, comfortable deck surface. This is the perfect choice for pool and spa decks, walkways, entrances, and driveways.

See actual samples of SGM, River Rok and Diamond Brite before installation.

River Rok is an advanced, revolutionary interior pool finish. This surfacing technology is blended with premium natural stones that are smaller than traditional pebble finishes. This unique material retains its original finish for years.

DIAMOND BRITE®
An exposed aggregate pool finish blended from natural quartz aggregate, polymer modified cement, and non-fading color quartz in a stunning variety of colors. This unique interior pool finish is durable, easy to maintain and comfortable to swimmers’ feet.

Depth Markers
Master Tile stocks a complete line of depth marker tiles in both a glazed finish for the water line as well as a non-skid finish for pool decks.

CUSTOM MOLDED PRODUCTS
Available in 12” to 72” lengths with standard or extended lip

Dry Treat Sealers
META CRÉME™ is the next generation impregnating sealer which surpasses all others in performance, durability and protection. It is a one time, low VOC sealer which is the ultimate in environmentally responsible protection for stone, tiles, bricks, paving, concrete and grout.

DRY-TREAT 405K is an impregnating sealer used to consolidate and strengthen surfaces and repel water. Protects stone surfaces from water penetration and salt damage. Follow application instructions.

DRY TREAT INTENSIFIA is a penetrating and breathable sealer used to enrich and enhance the color of natural stone, pavers and natural stone tile. Follow application instructions.

STAIN-PROOF is an invisible and breathable sealer suitable for all natural stone, pavers and natural stone tile. Guards against surface staining, retains existing color and finish, and guards against salt attack. Ideal for indoor and outdoor use on natural stone decks and pool coping.
