CEPAC TILE

Where Excellence in Quality & Service Unite!

Created by the vision of our Founder in Van Nuys, California in 1989, the Mission & Philosophy of Cepac Tile has remained unchanged. Cepac Tile is committed to providing our clients with the highest level of Customer Service, High Quality Japanese products and Recycling efforts that help maintain and protect the environment.

The Cepac Collection, produced exclusively in Japan, is created for the most part, by using traditional Japanese glazes that emulate those utilized by Ceramicists over 1500 years ago. The mineral based "Yohen" glazes react in the kiln when fired at a high temperature over a longer period and the result is a deep, rich, varied glaze, with a moving or translucent finish.

Our pledge is to establish and maintain lasting relationships with our clients by exceeding their expectations, gaining their trust through exceptional performance from every member of the Cepac Tile Team and by continuing to provide our clients with high quality, diverse & innovative products.

CEPAC Recycling Program

Since opening our doors in 1989 Cepac Tile has been conscious and diligent about recycling and conserving. We feel that it is our duty to try and preserve as many resources as possible.

We incorporate recycling into our workdays with little things like re-using the paper we accumulate from unnecessary faxes received for memos or shredding it for packing material. We also use China instead of paper plates and glass instead of plastic or styrofoam cups, in our lunch rooms.

We also recycle and conserve on a larger scale by partnering with manufactures that share our commitment to the environment. These manufactures use recycled ceramics to create the bisques for many of our product lines. Listed below you will find an alphabetical listing of our product lines that contain recycled content and the percentages they contain.

Recycle Bisques Percentage List

Item	Page	Re-Cycle Bisques Percentage

Disclaimer

Variations of shade are inherent characteristics of all kiln fired products.

To ensure satisfaction, please visually inspect all merchandise prior to installation, as use signifies acceptance.

We will endeavor to resolve any issues that may arise with material purchased, prior to installation.

Please note that the darker colors in the Cepac Collection are also more susceptible to showing surface scratches and are not necessarily recommended for installations on horizontal surfaces.

While the majority of our products are frost proof and acid resistant porcelain, there are several items that do not meet these criteria and have been labeled accordingly.

In this regard we would stress the importance of referring to the footnotes throughout the catalog.

Due to the limitations of printing inks, colors shown in this catalog may differ from the actual product. Samples can be provided for verification of actual color.

Featured Product

The **Allegria** series, one of the more recent additions to the **Clayco** Collection, is available in both flat and embossed styles and continues to exceed our expectations!

[See Product Line >](#)

New Arrivals

We are proud to announce that our new collections have arrived from our partners in Japan! The **SHC** Series in three color options is available in **Stagger Joint** and **Interlocking**. The **Clayco** Series in six color options is available in **Flat** or **Beveled Stagger Joint**, as well as a **T-Matrix** with **anti-slip** only glass available. Last but not least, the **Blissfully** Series in 2-1/2" x 2" tiles available in both color options with **interlocking** tile joints. The new series are all great and will meet your needs that can be used in both interior and exterior applications including swimming pool water lines.

Custom Order Programs

In addition to our regularly stocked collection of approved personal requests, Cepac Tile also offers **semi-Custom Order Programs** affording you endless design opportunities!

Cepac Tile News

Coming Soon

We are adding a 3" tile range to our **Blissfully** collection and it will be landing in February 2015. It will be available in glass and matte white, as well as matte black and matte grey.

The Thickness Project

In 2014, this community effort to better serve our customers, and are currently producing a **Tile Thickness Project**. Once completed we will have the thickness of all of our tiles available to our customers under the **Technical Data** section of the website.

About Cepac Tile

Cepac Tile is an importer and distributor of Japanese porcelain mosaic tiles. Due to the high price and high material value of our products, they can be used in both interior and exterior applications.

Without exception, our customers and swimming pool waterlines are just a few of the areas where our Collections can be utilized.
